Monitor air pollution data where ever you are

airACT

airACT provides you with up-to-date data on air quality and helps you to act against air pollution.

airACT collects and processes data from official measuring stations updated hourly by the European Environment Agency (EEA). The data are displayed in UTC (local time-1 in winter, local time-2 in summer).

airACT

Seleccionar por contaminantes
Buscar

● Bueno ● Regular ● Malo ● Muy malo

Check the air that you breath – and act!

Chose your region and get up-to-date air pollution data on:

NO_2
nitrogen dioxide

$PM10$ $PM25$
particulate matter

O_3
ozones

SO_2
ulphur dioxide

See when the hourly and daily values that affect the health (WHO) and the legal European compliance are exceeded, in four colours.

● Dark-red effects on health!

● Red

● Yellow

● Green

AirACT is free software and completely free to use
